

All the trace and macro mineral requirements a 350-450 MS cow needs, every day, plus Biotin for healthy hooves

Lactisol™ 400 Complete is formulated to meet the nutritional requirements of cows when grazing pasture and consuming meals/silage. It contains all the calcium & salt cows need plus a full range of trace minerals to maintain production and health in cows milking 350 - 450 milk solids a season. Importantly it also contains DSM Rovimix® Biotin for keratin production - a key component of healthy hooves. Cows with healthy hooves are much less prone to lameness.

DOSE RATE

Feed Lactisol 400 Complete at 200g/cow/day.
Ensure Lactisol 400 is mixed evenly through the feed.

WARNINGS

Danger: Keep out of reach of children

STORAGE INSTRUCTIONS

Store in a cool dry place free from dampness and rodent infestation.

INGREDIENTS

Biotin, Cobalt, Iodine, Copper, Zinc, Selenium (8mg/200g), Magnesium, Calcium, Sodium Chloride, Molasses.

WITHHOLDING PERIOD

Meat: Nil

Milk: Nil

PACK SIZE

25kg, 1000kg

NUTRITIONAL INFORMATION

The correct balance of trace and macro minerals is required for strong healthy cows – putting back what we take out.

Lactisol 400 Complete contains the calcium and sodium your cows need, along with the correct balance of trace minerals. Used throughout lactation, in combination with Tranzsol™ used in transition, it will help maintain herd health and production for dairy cows milking between 350 and 450 MS / year.

Lactisol 400 contains Rovimix Biotin, essential for the synthesis of keratin in hooves and energy uptake in the liver. Rovimix Biotin is the most concentrated form of Biotin available and the only form that is water soluble.

Lactisol 400 contains zinc which is present in many enzymes and proteins supporting metabolism, growth, production and reproduction. Zinc is required for protective keratins in the hoof and teat. Lactisol contains multi-stage release zinc compounds to optimise uptake and utilisation.

Lactisol contains magnesium, important in the adsorption of calcium from the gut and mobilisation of calcium from the skeleton. Lactisol uses rumen available magnesium for a safer, better response.

Lactisol 400 is formulated to be dust free.

Lactisol 400 Complete is formulated for the user who wants Lactisol, lime and salt in the one bag. Sollus also produce **Lactisol 400 Nucleus** for those who can use their own lime and salt and **Lactisol 400 Proton** for those supplying their own mag, lime and salt.

PRODUCT SELECTION GUIDE

	350-450 MS/cow	450-550 MS/cow	550+ MS/cow
Supply own Mag, Lime, Salt	Lactisol 400 Proton	Lactisol 500 Proton	Lactisol 600 Proton
Supply own Lime, Salt*	Lactisol 400 Nucleus	Lactisol 500 Nucleus	Lactisol 600 Nucleus
Mag, Lime & Salt Included*	Lactisol 400 Complete	Lactisol 500 Complete	Lactisol 600 Complete
Elevated Zn for facial eczema (available to blenders only)	Lactisol Blender Z, Proton and Nucleus forms available.		

* Mag requirements can vary from farm to farm and at different times of the year. Consult with your Sollus rep for more information.
